

# Digital Imaging Systems (Process)

## Basic solution

## Applications (Options)

### Features

- Digitization with resolutions of **1200 ppi** (pixels per inch) or more (subject to shooting conditions)
- Automatic acquisition** to minimize human resources and cost of digitization
- High accuracy and high efficiency of image processing** by proprietary software (**Patent Pending**)

With approval of the Ministry Cultural Heritage and Activities(Italy)  
(Su concessione del Ministero dei Beni e le Attività Culturali)  
Any use of images without permission is prohibited.
