

HITACHI Power Semiconductor Devices
Correspondence about The China standard SJ/T 11364-2006
“Marking for the control of pollution caused by electronic information products”

01 March 2007
Hitachi, Ltd. Power Systems
Power & Industrial System Division

This Information specifies Hitachi Power Semiconductors correspondence for China “RoHS” Regulation “Management Methods for Controlling Pollution by Electronic Information Products” and China Standard SJ/T11364-2006 ”Marking for the control of pollution caused by electronic information products”.

Please be aware that this correspondence will be revised by this standard and related legislation.

【 Products of Hitachi Power Semiconductors 】

■ High Voltage ICs ■ IGBT Modules ■ Power Diodes ■ Inverter System Power Modules

【 Correspondence for the requirement of SJ/T 11364-2006 】

No.	Items	Correspondence
1	Marking with pollution control logos	Non marking
2	Marking for Toxic or hazardous substances or elements	Non marking
3	Marking of environmental protection use period	Non marking
4	Recyclability marking	Non marking
5	Names and marking of packaging materials	Non marking

【 Products Information 】

If you need additional product information for China “RoHS” Regulation, Please contact our sales representative.
