Update: December 22, 2005

Problem when a process for OpenTP1 goes down

- Affected products

Corrective action	Product name	Platform	Last update
HS05-020-01	TP1/Server Base, TP1/NET/Library 2	AIX	December 22, 2005

- Problem description

If invalid data is sent to a port used by the above products, sometimes a process goes down. If this occurs, that process must be restarted. If that process is a system server, the OpenTP1 system must be restarted.
