Cross-site Scripting and DoS Vulnerabilities in Groupmax Collaboration and Cosminexus Collaboration

- Affected products

Corrective action	Product name	Platform	Last update
HS05-023-01	Groupmax Collaboration Portal, Groupmax Collaboration Web Client - Forum/File Sharing, Cosminexus Collaboration Portal, Cosminexus Collaboration Portal - Forum/File Sharing	Windows	November 18, 2005

- Problem description

Cross-site scripting and DoS vulnerabilities were found in the above products. Malicious users can exploit the vulnerabilities, execute invalid scripts, and cause DoS in the above products.

Revision history

- November 18, 2005: This page is released.

- Hitachi, Ltd. (hereinafter referred to as "Hitachi") tries to provide accurate information about security countermeasures. However, since information about security problems constantly changes, the contents of these Web pages are subject to change without prior notice. When referencing information, please confirm that you are referencing the latest information.
- The Web pages include information about products that are developed by non-Hitachi software developers. Vulnerability information about those products is based on the information provided or disclosed by those developers. Although Hitachi is careful about the accuracy and completeness of this information, the contents of the Web pages may change depending on the changes made by the developers.
- The Web pages are intended to provide vulnerability information only, and Hitachi shall not have any legal responsibility for the information contained in them. Hitachi shall not be liable for any consequences arising out of or in connection with the security countermeasures or other actions that you will take or have taken (or not taken) by yourself.

Update: November 18, 2005

HS05-023;
Cross-site Scripting and DoS Vulnerabilities in Groupmax Collaboration and Cosminexus Collaboration

Solutions for Groupmax Collaboration and Cosminexus Collaboration

Cross-site scripting and DoS vulnerabilities were found in Collaboration - Schedule and Collaboration - Calendar, which are components of Groupmax Collaboration and Cosminexus Collaboration.

- Cross-site scripting

Invalid scripts might be executed on a browser due to invalid scripts being sent to Collaboration - Schedule and Collaboration - Calendar.

- DoS

DoS might occur because of invalid requests being repeatedly sent to Collaboration - Schedule.

Fixed versions are available for the versions indicated below. Please upgrade the Groupmax and Cosminexus version in your system to the appropriate version.

[Affected models, versions, and fixed versions]

Product name	Model	Version	Platform	Fixed version	Release time	Last update
Groupmax Collaboration Portal	P-2646-6354 (*1)	07-00 - 07-10-/B	Windows	07-10-/C	October 31, 2005	November 18, 2005
Cosminexus Collaboration Portal	P-2443-3D64 (*1)	06-00 - 06-10-/B		06-10-/C	October 31, 2005	November 18, 2005
Groupmax Collaboration Web Client - Forum/File Sharing	P-2746-E354 (*1)	07-00 - 07-10-/A		07-10-/B	October 31, 2005	November 18, 2005
Cosminexus Collaboration Portal - Forum/File Sharing	P-2443-3E64 (*1)	06-00 - 06-10-/A		06-10-/B	October 31, 2005	November 18, 2005

(*1) See [\[Models of component products\]](#) for component products.
