Update: January 24, 2007

Problem of an OpenTP1 System Server or User Server Going Down

- Affected products

Corrective action	Product name	Platform	Last update
HS06-021-01	TP1/LiNK, TP1/Server Base	Windows, Linux	January 24, 2007

- Problem description

If invalid data is sent to a port used by the above products, a process might go down.

Revision history

- January 24, 2007: This page is released.

- Hitachi, Ltd. (hereinafter referred to as "Hitachi") tries to provide accurate information about security countermeasures. However, since information about security problems constantly changes, the contents of these Web pages are subject to change without prior notice. When referencing information, please confirm that you are referencing the latest information.
- The Web pages include information about products that are developed by non-Hitachi software developers. Vulnerability information about those products is based on the information provided or disclosed by those developers. Although Hitachi is careful about the accuracy and completeness of this information, the contents of the Web pages may change depending on the changes made by the developers.
- The Web pages are intended to provide vulnerability information only, and Hitachi shall not have any legal responsibility for the information contained in them. Hitachi shall not be liable for any consequences arising out of or in connection with the security countermeasures or other actions that you will take or have taken (or not taken) by yourself.
- The links to other web sites are valid at the time of the release of the page. Although Hitachi makes an effort to maintain the links, Hitachi cannot guarantee their permanent availability.

Update: January 24, 2007

HS06-021; Problem of an OpenTP1 System Server or User Server Going Down

Solutions for OpenTP1

If invalid data is sent to a port used by OpenTP1 (TP1/LiNK and TP1/Server Base), a process might go down.

Fixed versions are available for the versions indicated below. Please upgrade the OpenTP1 version in your system to the appropriate version.

[Affected models, versions, and fixed versions]

Product name	Model	Version	Platform	Fixed version	Release time	Last update
TP1/LiNK	R-1945B-22, R-1945B-E2	05-00 to 05-03-/F	Windows	05-03-/G	July 17, 2003	January 24, 2007
	R-1945B-21, R-1945B-E1	03-04 to 03-06-/K		(*1)		January 24, 2007
	R-945B-918, R-945B-A18, R-945B-B18, R-945B-C18, R-945B-D18	03-00 to 03-03-/H		(*1)		January 24, 2007
TP1/Server Base	P-2464-2244	05-00 to 05-00-/M	Windows	05-00-/N	July 18, 2003	January 24, 2007
	P-2464-2224	03-01-E to 03-01-FD		(*2)		January 24, 2007
	P-2464-2214	03-01 to 03-01-DB		(*2)		January 24, 2007
	P-9S64-2111	05-03	Linux	(*3)		January 24, 2007

(*1) If your system uses a Japanese version, please upgrade to version 05-03-/G for R-1945B-22 and later models.

If your system uses an English version, please upgrade to version 05-03-/G for R-1945B-E2 and later models.

(*2) Please upgrade to version 05-00-/N for P-2464-2244 and later models.

(*3) If your system uses a Windows version, please upgrade to version 05-00-/N for P-2464-2244 and later models.

If your system uses a Linux version, please upgrade to version 05-04 for P-9S64-2121 and later models.
